The Wilton Method of Cake Decorating

Course 2 STUDENT GUIDE

Flowers and Cake Design

Lesson 1

Making Royal Icing

Made with Wilton Meringue Powder, royal icing creates hard-drying, long-lasting decorations that have a matte finish. Royal icing is used to create flowers and trims. This means you can make these decorations in advance and simply place them on your cake when you are ready. Once hardened and properly stored, royal icing decorations will not soften or crumble. Be sure to keep royal icing decorations away from bright light when storing, as colors can fade. The recipe for royal icing is easy to make, but just as with class buttercream icing, it is important for you to pay attention to the icing consistency and store it properly prior to decorating.

3 level tablespoons (30 g) Wilton Meringue Powder

1 lb. (450 g) sifted pure cane confectioners' sugar
5 tablespoons (75 mL-120 mL) lukewarm water

Note: Make sure all utensils are grease-free. Place confectioners' sugar and meringue powder in a bowl. Stir or mix at low speed until blended. Add water and mix 7 to 10 minutes at low-medium speed until icing turns from shiny to dull and loses its sheen. To prevent drying, be sure to cover the bowl with a damp cloth while working with icing.

Store in an airtight container at room temperature for up to two weeks. To reuse, beat on low to restore original texture. Makes about 2½ cups (570 g).

Wilton Royal Icing Mix

A convenient mix for creating hard-drying flowers and other decorations! Makes 2 cups (480 g)—enough icing for about 280 drop flowers or 88 small roses. Certified Kosher.

Connecting World Expo

Your reliable partner for **World Expo Dubai 2020**

World Connect was established to provide a single point platform to connect participants to Dubai World Expo. As a single contact point for complete exhibition support services, World Connect helps you prepare and connect with success at World Expo 2020.

World Connect is part of the Strokes Exhibits Group, who have steered numerous global and regional exhibitions to great success. The Company has a strategic partnership with expo specialist, who have handled some of the major projects at Milan Expo 2015.

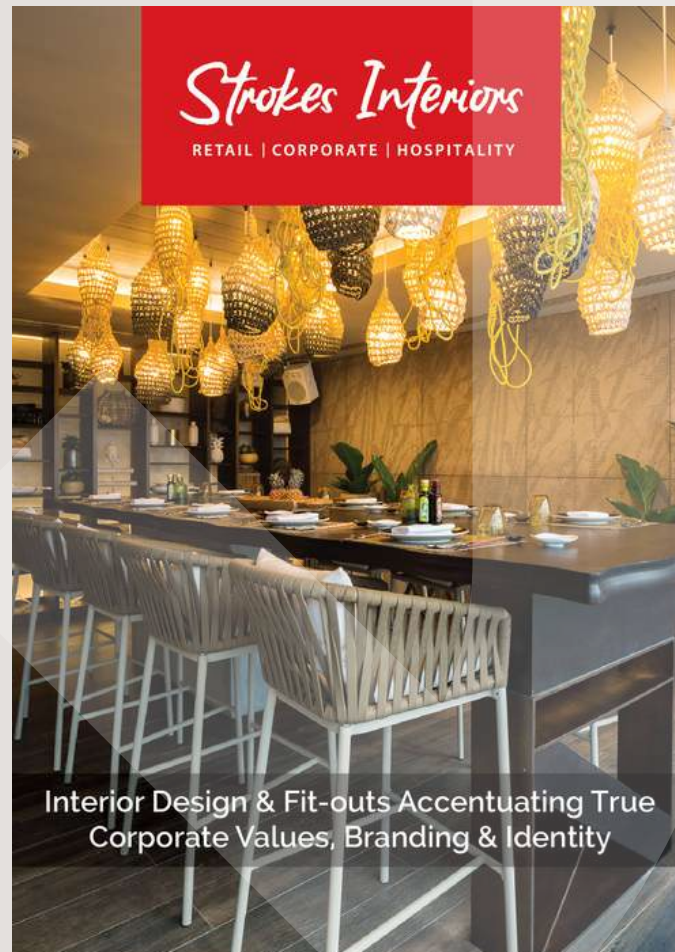

Having been the industry leader in the region for over 15 years, the Group is managed by a pool of experienced talent from across the world; and has a 15,000 sq ft state-of-the-art production facility. In addition, local knowledge and influence enable World Connect to make your Expo 2020 participation a huge success.

Screw Compressors

FROM 4 KW TO 500 KW

One of the leading compressed air technology systems having decades of experience in premium products in the compressed air sector.

Sophisticated compressor technologies from Compressor, Breathing Air Compressors, Oil free compressors, Refrigeration Dryers, Adsorption Dryer, After market filter and Service. The latest technologies combine excellence with the

quietest possible running performance, optimal energy efficiency and particularly careful conservation of resources.

- Maximum reliability in continuous operation
- Minimise operating costs with energy-efficient compressors
- A comprehensive range of screw compressors
- The right drive concept for any application

V&G-DRIVE Series

A solution for all industrial requirement. Compressor output with endurance and speed control

30-75 KW

COMBI Series

The cost-effective 4-in-1 compact system

4-37 KW

VARIABLE XP Series

Energy saving with SCD technology

16-355 KW

BELT XP Series

Reliable and Powerful for versatile applications.

4-37 KW

Oil Free Compressors

FLEX Series

Compact, quiet & powerful

5.5-30 KW

LENTO Series

Oil-free compressed air of high quality

15-130 KW

Piston Compressors

Oil lubricated Piston Compressor. Oil free Piston compressor

2KW - 11KW

Air Controllers

The very latest micro processor and communications technology is used, guaranteeing you seamless integration of all compressor models as well as the entire range of accessories.

Smart Monitoring. Reliable Documentation

Receiver Tanks

We supply both horizontal & vertical Compressed Air Receiver Tanks rated from 11-48 bars with standard capacities from 100-5,000 Ltr

ACE-OEL Industrial Lubricants

ACE OEL INDUSTRIAL LUBRICANTS

We blend technology and premium quality raw materials to meet the growing demands and expectations of the industrial sector. Our products meet the global certification standards and protect your industrial equipment and machinery. Our experienced technical team will work with your functional teams to deliver new and superior industrial technologies, educate your sales, and provide field support.

We define, develop and produce high-quality lubricating products and innovative industrial solutions to grow your business. The complex specialty chemicals are combined to optimize the quality, performance and value of our customers' products while reducing their environmental impact. Our technical staff is well-versed in chemistry, engineering, and tribology with solid system knowledge. Our clients unlock benefits that we provide through our services.

HYDRAULIC OIL - HLP

A high grade EP hydraulic oil based on carefully selected solvent refined base oils with a natural viscosity index. This type of hydraulic oil is very suitable for the heavy-duty hydraulic systems as well as for gearboxes and bearings.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE DEL ND 01	10	0.888	172	-30	100
ACE DEL NG 01	32	0.85	205	-30	108
ACE DEL NH 01	46	0.87	215	-24	102
ACE DEL NI 01	68	0.882	220	-21	97
ACE DEL NI 01	100	0.889	235	-21	97

HYDRAULIC OIL - HLPD

A high grade detergent hydraulic oil based on carefully selected solvent refined base oils with a natural viscosity index. This hydraulic oil can also be used as circulating lubricant (not in turbines) and for the general lubrication of machinery.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE DEL ND 010	10	0.856	152	-57	107
ACE DEL NG 010	32	0.853	205	-33	98
ACE DEL NH 010	46	0.865	215	-30	103
ACE DEL NI 010	68	0.877	215	-30	102

BIODEGRADABLE HYDRAULIC OILS

This biodegradable hydraulic oil is of high quality and suitable for the heavy-duty hydraulic systems of earth moving equipment's and of permanent installations that have to work under high pressures over a wide temperature range.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE BIO NG 0307	32	0.927	266	-39	196
ACE BIO NH 0307	46	0.915	270	-39	192
ACE BIO NI 0307	70	0.924	270	-39	176

ACE-OEL Industrial Lubricants

INDUSTRIAL HIGH VI OILS

A high grade EP multi grade hydraulic oil based on carefully selected solvent refined base oils. This type of hydraulic oil is very suitable for the heavy-duty hydraulic systems of earth moving equipments and of permanent installations that have to work under high pressures over a wide temperature range.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE DEL NE 0108	15	0.898	152	-60	143
ACE DEL NF 0108	22	0.864	192	-45	163
ACE DEL NG 0108	32	0.847	190	-39	159
ACE DEL NH 0108	46	0.853	200	-30	157
ACE DEL NI 0108	68	0.87	210	-36	157
ACE DEL NI 0108	100	0.88	215	-36	149

ZINC FREE HYDRAULIC OILS

A high grade zinc free EP hydraulic oil based on selected solvent refined base oils with a natural viscosity index. This hydraulic oil can be used for lubrication systems, general lubrication and vacuum pumps (with the exclusion of turbines).

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE DEL ND 0109	10	0.856	174	-27	92
ACE DEL NF 0109	22	0.853	195	-36	96
ACE DEL NG 0109	32	0.855	205	-30	98
ACE DEL NH 0109	46	0.866	215	-30	104
ACE DEL NI 0109	68	0.882	248	-24	104
ACE DEL NI 0109	15	0.847	154	-24	241

PNEUMATIC OILS

This oil can be used in an air-piping or micro-fog lubricator of hammers, pile driver drills, grinders, pumps, hoists, clamps and vices. There will be no foaming of ice in pneumatic tools and machinery. Good protection against deposit in the pneumatic system.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE NUMAX ND 01	10	0.84	120	-39	144
ACE NUMAX NG 01	32	0.863	198	-33	122
ACE NUMAX NH 01	46	0.874	200	-33	116
ACE NUMAX NI 01	100	0.883	220	-27	102

GEAR OILS - MINERAL

This oil can be used in all applications where lubricants of the CLP type according to DIN 51517-3 are recommended by the gear manufacturer. Recommended for industrial spur, helical and bevel enclosed gears with circulation or splash lubrication.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE-DYNE NI-01	68	0.881	220	-21	97
ACE-DYNE NI-01	100	0.89	235	-24	95
ACE-DYNE NK-01	150	0.895	245	-21	95
ACE-DYNE NL-01	220	0.897	245	-15	95
ACE-DYNE NM-01	320	0.901	248	-12	95
ACE-DYNE NN-01	460	0.904	255	-9	95
ACE-DYNE NO-01	680	0.902	240	-9	95

GEAR OILS - SYNTHETIC PAD

This synthetic oil is very suitable for the lubrication of heavy loaded mechanical gearboxes and bearings with a high thermal load. In comparison with mineral industrial gear oils a substantial extension of the oil drain interval is possible.

Product Name	Viscosity Cst at 40°C	Density at 15°C (kg/l)	Flash Point (°C)	Pour Point (°C)	Viscosity Index
ACE-DYNE NI-0304	68	0.849	195	-54	146

Trio Tech
Precision Excellence

Since 2005, **Trio Tech** is specialized in production of all kinds of Moulds, Tools and Dies. Our service includes a wide variety of technical consultation for our valued customers. We develop and design all complicated and technically demanding engineered items from design, production, testing & delivery for our external and internal customers.

Reliability, consistency, quality, timing & creativity has enhanced our scope with customers and vendors where our capability of offering top expertise in co-designing, engineering, designing, mould making, CNC machining, CNC EDM, assemblies and supply chain.

Evolution and development are the elements where Trio Tech reached becoming the market leader in design & construction of complex moulds and engineering components.

We promote human role in the organization. We reinvest the profits and resources in technology, machines, working environment along with trainings and updates, following all procedures in compliance with the quality systems hence continuously developing innovative products and solutions.

Our policies have always driven the company with technological evolution enriching the extraordinary experience where Trio Tech has been a top-level partner for product engineering. Expertise and experience are our core strengths offering superior customer satisfaction which has increased our value and has established a professional relationship .

Quality and HSE Policies

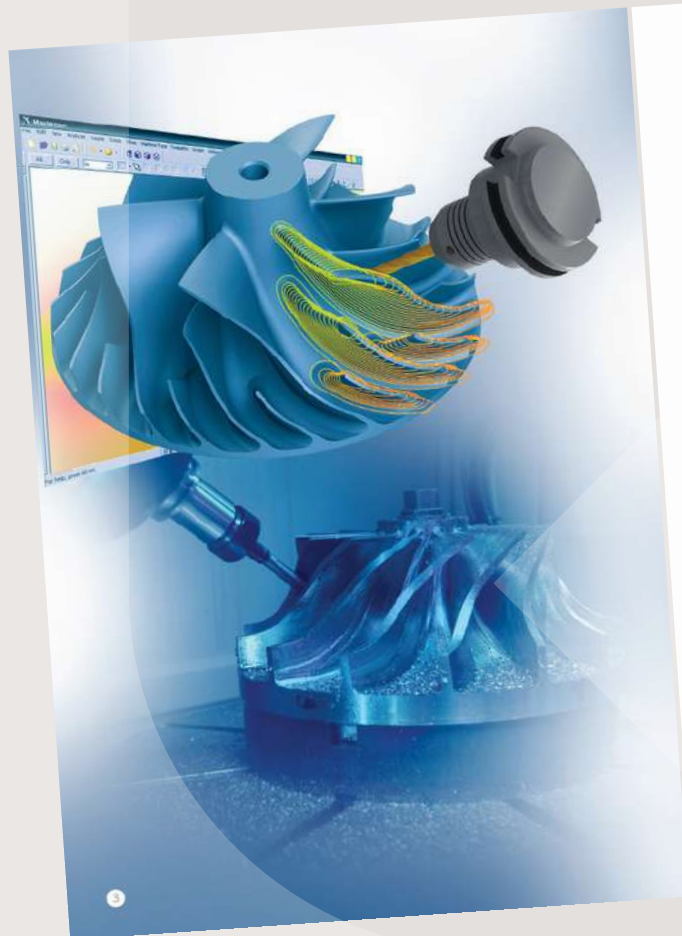

Trio Tech operates in accordance with internationally accredited quality standards with updates on software and calibrating all measuring and testing units enabling an up to date process improvements. All required certification necessary for the operations of TrioTech are in place.

Inspection and Tooling

- ISO 9001 approved facility.
- Surface plate, profile projector and measuring instruments.
- Gage maker instruments to check any threads and grooves.
- Calibration done by third party and records are well maintained slip gauges, pitch gauges, ring groove and thread gages.
 - Anti-vibration boring bars for long boring.
 - Electrolytic copper for better performance in EDM.

2

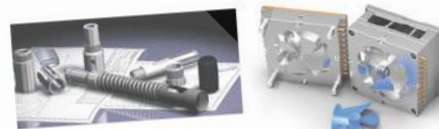

Design

- With state of art machines, mostly CNC and conventional machines and with state of the art Design facility, we operate in demographically positioned location in Dubai with modern softwares like CAD/CAM UNIGRAPHICS
- We do Reverse Engineering, creating CAD designs by utilizing our Portable API 3D laser scanners.
- We can generate digital data from a wide-variety of complex surfaces and parts.

Engineering

- Sound knowledge management system.
- Pool of external industry experts working for us on consultation & developing new technologies.
- Mixture of young & experienced designers following the approach of continuous improvements.
- We offer metrology service with dimensional inspection and services including consulting with reverse engineering
